ABSTRACT

This study aims to determine the evaluation and clarification of the implementation of the formation of village regulations in the new normal. The method used in this research is empirical or sociological research methodology. This study uses a qualitative approach and sampling using purposive sampling and using qualitative analysis techniques. The results of this study show the implementation of the evaluation and clarification process by the regent of boalemo on the formation of village regulations in the New Normal period to date is based on not running effectively in accordance with the regent of boalemo regulation no. 25 of 2015 concerning Procedures for Formulating Village Regulations. Because all evaluation stages should be carried out by the Department of Social Affairs and Village Community Empowerment and the clarification stage should be carried out by the Regent through the Legal Section of the Regional Secretariat to clarify the Draft Village Regulation. However, in its implementation, it is completely submitted to the Social Service. Therefore, the process stages in Boalemo Regency are not in accordance with the rules that have been formed.

1. Introduction

The Indonesian government has issued a disaster emergency status starting from February 29, 2020 to May 29, 2020 regarding this virus pandemic with a total time of 91 days. The steps taken by the government to be able to resolve this big case, one of which is to promote the social distancing movement. This concept can explain that in order to reduce or break the chain of Covid-19 infection, one must maintain a distance of at least 2 meters from other humans, and not make direct contact with other people, avoiding mass gatherings. But many people do not respond to this well, for example the government has dismissed students and students from not attending college or attending school or enforcing work from home, but this condition is widely used by many people for vacation. In addition, even though Indonesia is already in a state of emergency, it will still carry out *tabhliq akbar*, where thousands of people will gather in one place, which can clearly be the best mediation for the spread of the corona virus on a much larger scale.¹In addition to this, with the development of increasingly modern technology, it has a negative and positive impact on society in general, one of the negative impacts is that we are always presented with news of the death of Covid 19. So that the development of internet technology that is increasingly rapidly has had a very large impact on society. world.²

The impact of Covid in Boalemo Regency itself is that many people have been disadvantaged, not only socio-culturally but also the regulations that were formed by the government before this pandemic, therefore the Regent of Boalemo issued a Circular in the new normal era, we all know that with the arrival of this covid there are many disadvantaged people, one of which is small traders, are prohibited from selling and people are forced to stay at home because this situation cannot be forced by the government for people to carry out activities outside the home, therefore the government issues new rules during the new normal period.

Basically, in implementing the formation of village regulations by the village government, it should pay attention to the hierarchy rather than the preparation of village regulations itself. It is feared that there will be regulations that will conflict with other regulations, so that their implementation can harm the social community in general. The process of forming village regulations must pay attention to the regulations governing the preparation of village regulations, especially in the Minister of Home Affairs Regulation No. 11 of 2014 concerning the Flow of Issuing Village Regulations. Everyone else, including the government must heed it, by making laws on the basis of natural rights themselves.³Because of this, one of the aims of the recognition

2Mohamad Rivaldi Moha. (2020). The Urgency of Registration of Electronic System Operators for E-Commerce Businesses. *Journal of Law Review*. 2(2), 115

3Daffodil, Dolot Alhasni. (2020). Determination of Legal Protection of Neighboring Right Holders. *Journal of Law Review*. 2(1), 67

and inauguration of the rule of law is to protect human rights, meaning that individual rights and freedoms are recognized, respected and upheld.⁴ Considering that Indonesia is also one of the countries that puts forward the constitution in every aspect of the life of the nation and state.⁵

The BPD invites the village head to discuss and agree on the draft village regulation, in the case that the Ranperdes is the same, before the BPD's proposed Ranperdes, the village head's proposed Ranperdes as a counterpart. Draft village regulations that have not been discussed can be withdrawn by the proposer. Ranperdes that have been discussed cannot be withdrawn, except by mutual agreement between the village government and the BPD. The mutually agreed Ranperdes is conveyed by the leadership of the Village Consultative Body to the Village Head to be stipulated as a regulation no later than 7 days from the date of agreement. Then, the Ranperdes must be determined by the village head by affixing a signature no later than 15 days from the receipt of the draft village regulation from the leadership of the Village Consultative Body.

The condition of Boalemo Regency during this pandemic, community activities are limited to break the chain of the spread of covid, therefore the village government makes village regulations during this pandemic, the situation that the community attends is very different from the previous situation, the current situation is that people are prohibited from going out at night and for traders. Even small ones are limited in selling time. with data obtained by researchers from the Village Community Empowerment Service of Boalemo Regency that the villages in Boalemo Regency are 81 villages, 2 sub-districts and 7 sub-districts.⁶ In the process of making village regulations, boalemo district refers to PERBUP No. 25 of 2015 concerning Procedures for Drafting Village Regulations. In the preparation of this village regulation, it also outlines the process of evaluating and clarifying the regent of Boalemo on the formation of village regulations.

In the evaluation process, the Boalemo Regency Government is still carrying out the same procedure at this stage, namely the process as written in the Regent's Regulation no. 25 of 2015 concerning procedures for drafting village regulations, in this evaluation process the Regional Government delegates full responsibility to the District Government in conducting the evaluation and clarification.⁷ The term liability in legal terminology is often replaced by liability. Responsibility can be interpreted as a basic

willingness to carry out what is an obligation.⁸Local government is a subsystem of the government of the Unitary State of the Republic of Indonesia. Therefore, all the goals and ideals mandated by the opening of the 1945 Constitution of the Republic of Indonesia are also the ideals and goals of local governments that must be achieved.⁹

2. Method

The type of research used is empirical legal research, according to Mukhti Fajar that empirical research is legal research that will provide understanding whole to the law in the context of norms and when applied in a social context.¹⁰Where to examine the implementation of the evaluation and clarification process by the regent of Boalemo on the formation of village regulations in the new normal period obtained through interviews and concrete actions obtained through direct observation. While the sampling used purposive sampling and data analysis using a qualitative research approach.

3. Evaluation and clarification of the implementation of the formation of village regulations in the new normal period

Regarding the village government, Article 202 says, (1) the village government consists of the village head and village officials. (2) The village apparatus consists of the village secretary and other village officials. (3) the village secretary as referred to in paragraph (2) is filled with civil servants who meet the requirements.¹¹

Following up on the Evaluation and Clarification of Village Regulations in the New Normal period, it means that it will not be separated from the problems of National Law policy, from the basics (Constitution/UUD 1945), to derivative regulations that are technical in nature. It should be understood that the State of Indonesia is a State of Law. So that the basis cannot be separated from the role model of the rule of law principle. Because the rule of law is a reflection of the desire of the community as a whole to submit themselves to a rule that will bind and apply without exception to each of its members.¹²As said by Prof. Fenty Puluhuawa in his writing According to the concept of accountability in state administration, where it is said that although the state administration has the breadth in determining policies, its actions must be accountable

both morally and legally.¹³ The reason is that government policies as outlined in laws and regulations are always followed by criminal sanctions¹⁴and the involvement of the State which is also one of the characters of the conflict phenomenon.¹⁵Furthermore, the form of the legal system also requires people to have a sense of love and affection, mutual respect, mutual help, loyalty, honesty, and adequate physical and spiritual support, so that the implementation of the legal system can run in accordance with people's lives in general.¹⁶Furthermore, an important point in the preparation of every policy issued by the Government comes solely from the wishes of the people.¹⁷

In the evaluation and clarification process, we must first understand the evaluation and clarification itself. Evaluation is an assessment and assessment of the draft Village Regulation to find out if it is contrary to the public interest and/or higher Legislation.¹⁸While Clarification is the study and assessment of Village Regulations to find out if they are contrary to the public interest, and/or higher laws and regulations.¹⁹Prior to the evaluation and clarification stage, the village government must first prepare the village regulations, the types of regulations in the village consist of: 1). Village Regulations; 2). Joint Regulation of the Village Head; and 3). Village Head Regulations.

The Village Regulations referred to are materials for implementing Village Authority and further elaboration of higher Legislations. The joint regulation of the Village Head is Village Cooperation. while the Village Head Regulation is the implementation of Village Regulations, joint Village Head Regulations and follow-up to higher Legislative Regulations.²⁰In the preparation of the Village Regulation, the things that need to be considered by the Village Government and the Village Consultative Body (BPD) are the Minister of Home Affairs Regulation No. 111 of 2014 concerning the flow of issuance of village regulations and its derivative Rules. Regulation of the Regent of Boalemo

¹⁹Article 4 Regulation of the Regent of Boalemo Number 25 of 2015 concerning Procedures for Formulating Regulations in the Village

²⁰Article 4 Boalemo Regent Regulation Number 25 of 2015 concerning Procedures for Formulating Village Regulations CHAPTER II Material and Content of Village Regulations

Number 25 of 2015 concerning Procedures for Drafting Village Regulations. The stages that must be carried out by the Village Government and the Village Consultative Body (BPD) are:²¹

1.) Planning

- a. Planning for the preparation of the Draft Village Regulation is determined by the Village Head and the BPD and the Village Government Work Plan.
- b. Community Institutions, Data Institutions, and other Village Institutions in the village can provide input to the Village Government and/or the Village Consultative Body (BPD) for plans to draft Village Regulations.

2.) Preparation of Village Regulations by the Village Head

- a. Drafting of Village Regulations is initiated by the Village Government;
- b. The draft Village Regulation that has been prepared must be consulted with the village community and can be consulted with the Camat to get input;
- c. The draft Village Regulation that is consulted as referred to in point (B) is prioritized for the community or community groups that are directly related to the substance of the regulatory material;
- d. The input from the village community and the sub-district head as referred to in point (B) is used by the Village Government to follow up the process of preparing the draft Village Regulation;
- e. The draft Village Regulation that has been consulted as referred to in point (C) is submitted by the Village Head to the BPD for discussion and mutual agreement.

3.) Preparation of Village Regulations by the Village Consultative Body (BPD)

- a. BPD can prepare and propose draft Village Regulations;
- b. Draft Village Regulations as referred to in point (A) except for draft Village Regulations concerning village medium-term development plans, draft Village Regulations concerning Village Government work plans, draft Village Regulations concerning Village Budget and Draft Village Regulations concerning accountability reports on the realization of APBDesa implementation.

4.) Discussion

- a. BPD invites the Village Head to discuss and agree on the draft Village Regulation;
- b. In the event that there is a draft Village Regulation on the initiative of the Village Government and a proposal from the BPD regarding the same matter to be discussed at the same time of discussion, the draft Village Regulation proposed by the BPD shall take precedence while the Draft

²¹Article 5 Paragraph (13) Regulation of the Regent of Boalemo Number 25 of 2015 concerning Procedures for Drafting Village Regulations CHAPTER III Preparation of Village Regulations

Village Regulation Proposed by the Village Head is used as material for comparison.

- c. Draft Village Regulations that have not been discussed can be withdrawn by the proposer;
- d. The Draft Village Regulation that has been discussed cannot be withdrawn except by mutual agreement between the Village Government and the BPD;
- e. The draft Village Regulation that has been mutually agreed upon is submitted by the leadership of the Village Consultative Body to the Village Head to be stipulated as a Village Regulation no later than 7 (seven) Days from the date of agreement;
- f. The Draft Village Regulation as referred to in point (E) must be determined by the Village Head by affixing a signature no later than 15 (fifteen) Days from the receipt of the draft Village Regulation from the leadership of the Village Consultative Body.

5.) Determination

- a. The Draft Village Regulation which has been signed shall be submitted to the Village Secretary for promulgation;
- b. In the event that the Village Head does not sign the Draft Village Regulation as referred to in Point (A) the Draft Village Regulation must be promulgated in the village sheet and valid in becoming a Village Regulation.

6.) Invitation

- a. Village Secretary Promulgates Village Regulations in village sheets
- b. The Village Regulation is declared to be effective and has binding legal force since its promulgation.

7.) Dissemination

- a. Dissemination is carried out by the Village Government and BPD since the stipulation of the Village Regulation draft, the preparation of the Village Regulation Draft, the discussion of the Village regulation draft, to the promulgation of village regulations;
- b. The dissemination as referred to in point (A) is carried out to provide information and/or obtain input from the public and stakeholders.

After drafting the Village Regulation, the Village Regulation must be evaluated and clarified. In the evaluation and clarification process, the Regional Government creates an evaluation and clarification team, the team formed is the District Government, which is chaired by the Camat Secretary.²²After being evaluated by the Boalemo Regency Village Social and Community Empowerment Service, the Draft Village Regulation was submitted to the Regent through the Legal Section of the Boalemo Regency Regional Secretariat. Meanwhile, the Regent's Regulation Number 25 of 2015 concerning

²²Audience. Jefrie Kaluku. Acting Head of the Botumoito Sub-district. April 2022

Procedures for Drafting Village Regulations states that a draft village regulation that has been evaluated is valid as a village regulation. However, what the researcher found was that the village regulation draft that had been evaluated was submitted to the Regent through the Legal Section of the Boalemo Regency regional secretariat for clarification.

Basically, any policy formulation is basically able to provide welfare for the community, especially in the preparation of village regulations, where solely the direction of the policy will have a major impact on the community, especially the important point is that with this policy the community can feel justice equally. To quote as said by Fence M. Wantu in his Journal that the essence of justice is an assessment from one person to another, which is generally seen from the party receiving the treatment only.²³ Furthermore, according to Suwitno Yutye Imran that Justice serves as a guide to distinguish between fair and unfair actions. elements of the aspect of justice can be contained in the substance.²⁴ Selain itu dalam hal penyusunan rancangan peraturan desa harus juga memperhatikan perkembangan ilmu pengetahuan dan teknologi, otonomi daerah, serta akuntabilitas penyelenggaraan Negara.²⁵ Peningkatan kesejahteraan masyarakat yang difasilitasi oleh hukum ini tentunya sinergis dengan Subekti yang memiliki pemikiran bahwa “hukum itu membaktikan kepada haluan negara yang pada pokoknya adalah membuahakan kejayaan dan kegembiraan untuk masyarakatnya.”²⁶ Proses Evaluasi yang harus dilalui oleh pemerintah desa tersebut ialah:

1. Evaluasi

Pasal 14

Rancangan Peraturan Desa tentang APB Desa, pungutan, dan organisasi

26 Jufryanto Puluhulawa, Mellisa Towadi, and Vifi Swarianata. (2020). Leato / Japanese Cargo Wreck Underwater Site Legal Protection. *Journal of Legal Reform*, 24(2), 201

Pemerintah Desa yang telah dibahas dan disepakati oleh Kepala Desa dan BPD, disampaikan oleh Kepala Desa kepada Bupati melalui Camat atau sebutan lain paling lambat 3 (tiga) hari sejak disepakati untuk dievaluasi

Pasal 15

- 1.) The results of the evaluation of the draft Village regulations as referred to in article 14 are submitted by the Regent in no later than 20 (twenty) working days from the receipt of the draft Village Regulation by the Regent.
- 2.) In the event that the Regent does not provide the Evaluation results within the time limit as referred to in paragraph 1 (one), the Village Regulation shall apply automatically
- 3.) In the event that the Regent declares that the evaluation of the Draft Village Regulation is not in accordance with the public interest and higher Legislation, the Village Head is obliged to make improvements no later than 7 (seven) working days from the receipt of the evaluation results.

Article 16

- 1.) The Village Head shall revise the draft Village Regulation as referred to in Article 15 paragraph (3) no later than 20 (twenty) days from the receipt of the evaluation results. The Village Head may invite the BPD to revise the Draft Village regulation as referred to in paragraph 1 (one)
- 2.) The results of corrections and follow-up are submitted by the Village Head to the Regent through the Camat.

Article 17

In the event that the village head does not follow up on the results of the evaluation as referred to in article 16 paragraph (2), and still stipulates it to be a Village Regulation, the Camat submits a proposal to cancel the Village Regulation stipulated by the Regent's Decree.

In the process of evaluating the draft Village Regulation, in this case the sub-district head who was appointed directly by the Regent in evaluating the draft village regulation, the researchers found that the one conducting the evaluation was not the

Camat but the Camat chose the Camat Secretary as the Head of the Village Regulation Draft evaluation team and assisted by the Head of Government. According to the researcher, the mandate given by the regent in evaluating the Draft Village Regulation is not in accordance with the Regent's regulation number 25 of 2015 concerning Procedures for Drafting Village Regulations which should be used as a reference by the Camat to conduct evaluations, and for the formation of an evaluation team chaired by the Camat Secretary. there are no regulations or a Regent's Decree so that the Camat forms an evaluation team for the Draft Village Regulation.

After the Camat conducts an evaluation, the Draft Village Regulation is returned to the Village Community Empowerment Social Service for re-evaluation whether there are rules that conflict with general provisions and higher laws and regulations. So that this does not cause problems and if the policy is not in accordance with the behavior pattern of the community, then the government must resolve a problem with the community itself.²⁷

2. Clarification

Article 20

- 1.) Village regulations that have been promulgated as referred to in article 12 paragraph (1) shall be submitted by the Village Head to the Regent no later than 7 (seven) days from the date of promulgation for clarification.
- 2.) The Regent clarifies Village Regulations by forming a clarification team no later than 30 (thirty) days from receipt.

Article 21

- 1.) The results of the clarification as referred to in Article 19 paragraph (1) can be in the form of:
 - a. Clarification results that are in accordance with the public interest, and/or the provisions of higher laws and regulations; and
 - b. The results of clarifications that are very contrary to the public interest and/or the provisions of higher laws and regulations.
- 2.) In the event that the results of the clarification as referred to in paragraph (1) are village regulations that do not conflict with the public interest, and/or the provisions of higher laws and regulations, the Regent issues the results of

27 Fitriyadi, Ahmad Adi. (2020). Differentiation of Refugees and Asylum Seekers in International Refugee Law and Its Relation to the Principle of Non-Refoulement. *Journal of Law Review*. 2(2), 127

clarification containing the results of the appropriate clarifications;

- 3.) In the event that the results of the clarification as referred to in paragraph (1) are in conflict with the public interest, and/or the interests of higher legislation, the Regent shall cancel the Regent's Regulation with a regent's decision.

After being evaluated by the Boalemo Regency Village Social and Community Empowerment Service, the Draft Village Regulation was submitted to the Regent through the Legal Section of the Boalemo Regency Regional Secretariat. Meanwhile, the Regent's Regulation Number 25 of 2015 concerning Procedures for Drafting Village Regulations states that a draft village regulation that has been evaluated is valid as a village regulation. However, what the researcher found was that the village regulation draft that had been evaluated was submitted to the Regent through the Legal Section of the Boalemo Regency regional secretariat for clarification. However, what the researcher found was that the Legal Division of the Boalemo Regency Regional Secretariat had never accepted the regulation.

Formation of Village Regulations in the New Normal

In the preparation of the Village Regulation, the Village Government itself must wait for a direct circular from the Regional Government. Village Government is the administration of government affairs and the interests of the local community in the system of Government of the Unitary State of the Republic of Indonesia.²⁸

In the formation of a Village Regulation, the village government and village communities need to be able to see the potential that exists in the village. District governments and village governments in an effort to implement regional potential development as a manifestation of the acceleration of underdeveloped regions are faced with many obstacles, including:

1. The ineffectiveness of village potential management programs is due to a lack of understanding of village officials and communities, starting from the identification of village potential, planning to management, both in terms of natural potential or human resource potential;
2. Not yet optimal coordination of implementation of village potential development

²⁸Article 1 Paragraph (6) Regulation of the Regent of Boalemo Number 25 of 2015 concerning Procedures for Formulating Regulations in the Village CHAPTER I General Provisions

interventions at all levels related to planning and budgeting, and monitoring and evaluation because they do not have basic references related to potential development in the village;

3. Not yet effective and efficient allocation and utilization of resources and sources of funds;
4. Limited capacity and quality of program implementation;
5. There is still a lack of advocacy, campaigning, and dissemination related to potential development in the village.

Therefore, the formation of village regulations from year to year only regulates the Village Revenue and Expenditure Budget (APBDes) until now.

Stages of Evaluation and Clarification of Village Regulations in the New Normal

Regional Governments have an obligation to foster and supervise the performance of the Village Government. In carrying out its policies, the Regional Government may delegate guidance and supervision to regional apparatus and the form of guidance, supervision and empowerment must be in accordance with the statutory regulations that have been regulated.

The things that need to be evaluated by the District Government are checking whether the village regulations that have been formed are not in conflict with the public interest and higher laws and regulations. After evaluating the Village Regulations, the Village Regulations are submitted directly to the Technical Service, namely the Village Community Empowerment Social Service.²⁹After being evaluated by the District Government, the Village Regulation will still be re-evaluated The draft village regulation by the Village Community Empowerment Social Service, the Village Community Empowerment Service will re-evaluate and will adjust whether the Village Regulation conflicts with general provisions and higher legislation After being evaluated, the Village regulations are directly submitted to the Regent through the Legal Section of the Regional Secretariat for clarification.³⁰After being clarified, the Legal Division of the Regional Government issues a Decree on the Results of Clarification of the Draft Village Regulation into a Village Regulation and if there is a Village Regulation that is contrary to the public interest and/or higher legislation, the Regent cancels the Village Regulation with a Regent's Decree.

3 Conclusion

²⁹Audience. Jefrie Kaluku. Acting Head of the Botumoito Sub-district. April 2022

³⁰Audience. Yulandri Alie. Head of the Village Community Empowerment Social Service. April 2022

The Implementation of the Evaluation and Clarification Process by the Regent of Boalemo Against the Formation of Village Regulations during the New Normal period until now based on not being effective in accordance with the Regulation of the Regent of Boalemo No. 25 of 2015 concerning Procedures for Drafting Village Regulations. Because all evaluation stages should be carried out by the Department of Social Affairs and Village Community Empowerment and the clarification stage should be carried out by the Regent through the Legal Section of the Regional Secretariat to clarify the Draft Village Regulation. However, in its implementation, it is completely submitted to the Social Service. Therefore, the process stages in Boalemo Regency are not in accordance with the rules that have been formed.
